

For schools implementing Accelerate Education courses with **iPad** as devices for students, **be sure to share this with your district tech team for device set up!**

Accelerate Education tech specs are found here.

We recommend Safari (only on iPad) with these settings:

The iOS version MUST be at least 13.3.

They must set a couple settings to make 3rd party cookies work:

- Settings -> Safari -> Privacy & Security -> Block All Cookies MUST BE OFF
- Settings -> Safari -> Privacy & Security -> Prevent Cross-Site Tracking MUST BE OFF

Using PDFs:

Here's a link to the [video](#) in our Getting Started section that shows how to complete this on a iOS device.

Voice Memo and Recording:

It is recommended that you use the Voice Memo app that is preinstalled on the iPad. If you've gotten the iPad from your school, you may not be able to download anything else.

If you choose to download an app to record audio on iPads, please first click the link below:

Then click on the iPad tab. You may use this app to record audio.

**The alternative is a website called Vocaroo. Please click [HERE](#) to record directly on the site.*
